Strategy Pillars

...operating with a clearly defined strategy

9

Innovation and Differentiation

Deploying innovation to continue rolling differentiated products across the price spectrum

Integration and Optimization

An upstream integration by increasing the production capacity of Azur Papier (Cellulose wadding)

Streamline operations in existing markets

Regional Expansion

Exploring further organic and inorganic opportunities to penetrate new markets

Diversification of Revenue Streams

Diversification of business lines

Strategy Pillars

10

Production innovation is at the core of Lilas' operations

Innovation & Differentiation

Historically, SAH has been able to successfully:

- Launch a wide range of products every year and
- Customize its products for each market (packaging, sizes, etc.), while emphasizing on product quality and affordability

SAH creates well-tailored products to match its markets needs through:

- In-house R&D strategy;
- Technical know-how, and
- Close collaboration with business partners (Suppliers, companies and laboratories)

Deploying innovation to continue rolling differentiated products across the price spectrum

New SKUs by product type

Strategy Pillars

11

Vertical integration for cost optimization and speed to market

Integration & Optimization

An upstream integration by increasing the production capacity of Azur Papier (Cellulose wadding)

Streamline operations in existing markets

- In 2013, SAH launched Azur Papier, a company specialized in the production of cellulose wadding, its main raw material in order to secure its availability and reliability while increasing margins. Gross margin moved from **34% in 2013 to 42% in YTD Q'3 2020**;
- First production line reached full capacity, leading to a capacity increase with the acquisition of a second production line.

Strategy Pillars

Expanding into Africa through exploring new export markets and developing regional platforms ¹²

Regional Expansion

- SAH has proven ability to penetrate and establish manufacturing capabilities in new markets with the successful launch of the Algerian, Libyan, Ivorian and Senegalese subsidiaries

Exploring further organic and inorganic opportunities to penetrate new markets

Strategy Pillars

Diversifying product portfolio to use Lilas' brand notoriety and distribution network

13

Diversification
of Revenue

Diversification of
business lines by
launching the
detergent activity

Project rationale

- Limited growth of the hygiene market
- Fast growing, yet fragmented and imports' driven market (detergent)
- Limited local competition
- Leverage the existing distribution network
- Leverage Lilas' strong brand notoriety
- Enlarge consumer reach by entering new markets

Creation of Azur

YTD Q3'20 Financial Performance

17

Revenue Analysis

- ✓ Lilas continues to show sustained solid performance despite the sanitary lockdown and restrictions imposed by the resurgence of Covid-19 in the country and regionally. As of September 2020, SAH reported YTD consolidated revenues of TND 469.1 million (US\$ 165.5 million), up by 18.3% compared to last year in local currency terms;
- ✓ Consolidated sales growth has been essentially driven by detergent sales increase, which reached TND 95.0 million (US\$ 33.5 million), i.e. 3x YTD September 2019 sales. Azur Papier and SAH Tunisia reported 34.6% and 3.3% growth, respectively;
- ✓ The breakdown of consolidated revenue by subsidiary highlights the growing contribution of Azur Détergent, which revenue accounts for c. 19% of total revenue;
- ✓ During Q3'20, consolidated sales slightly decreased by 5.7%, impacted by the decreasing trend in household consumption and the temporary interruption in letter of credit payments with Libya.

III. 2020 Outlook & Perspectives

20

2020 Outlook & Perspectives

21

Outlook in numbers

- ✓ Consolidated revenues are expected to reach TND 644.2 million (c.US\$ 227.3 million) by the end of 2020, boosted by the higher growth expected for Q4'20, as already witnessed in October monthly sales, the recovery of the Algerian market, the growing trend in detergent sales and the ongoing expansion in new East African markets, namely Uganda and Kenya;
- ✓ Growth will be further lifted by the launch of baby diapers production at SAH Senegal as well as an additional production line for adult hygiene at SAH Tunisia;
- ✓ Accordingly, FY20 EBITDA is estimated at TND 118.5 million (US\$ 41.8 million), implying an EBITDA margin of 18.4% versus an EBITDA margin of 14.4% in 2019;

Note: Based on an average FX USD/TND: 2.8348 (YTD Sep'20)

ECO-FRIENDLY IN OUR OPERATIONS

SAH group is committed to reduce the environmental footprint of its operations as business expands

40%
Of production is based on recycled paper

15%
Of recycled plastic

35%
Of energy savings

2
Water treatment stations

4
Rainwater collection basins

100%
Of the toxic waste is processed

WASTE MANAGEMENT – Recycled plastic

SAH group committed to reduce its plastic footprint by collecting and transforming plastic packages. 15% of recycled plastic is incorporated in its packaging through the processing of wasted raw materials and the re-use of recycled plastics.

Recycled Paper

Up to 49% of SAH production is based on recycled paper/65% for Azur Papier, in line with the group commitment to halt deforestation

WATER TREATMENT

In line with its commitment to preserve the natural environment and avoid pollution of ecosystems, SAH group has two treatment stations at two different production sites. The set up of a third station is being validated in addition to the construction of four rainwater collection basins to avoid potential pollution.

ENERGY SAVING

SAH group put in place a cogeneration system to recover the waste heat from existing electricity production by saving up to 35% of energy losses and helping to reduce CO2 emissions in the atmosphere. Projects are under study to reduce energy consumption by 50% over the next 5 years.

WASTE MANAGEMENT – Toxic waste

SAH group has signed agreements with certified organizations for the collection, treatment and destruction of all toxic waste

V. COVID-19 Update

25

COVID-19 Update

Risk Assessment – Demand and revenues

26

Demand in household and personal care products is historically resilient

- Household and personal products demand is resilient to economic cycles and historically proven to be stable during economic shocks. The sector is estimated as vital in the current circumstances of COVID-19 pandemic;
- Sales of detergent and paper-based products (Kitchen towel, sanitary paper, etc..) might report higher growth compared to other hygiene products such as baby diapers, feminine hygiene and incontinence care products;

Travel restrictions and local curfew enforced by the government

- No interruption of production at the Tunisian sites;
- Temporary interruption in the set up of the second production line of Azur Papier, as Italian engineers flew back to their country. Operations starting date postponed to Q1'21 versus H2'20 initially;
- Slowdown of production at the production sites of Algeria, Libya and Ivory Coast, given commuting difficulties and closing of inter-province borders, namely in Algeria;
- Logistical issues at the local level: Temporary permissions are required for the commercial trucks to circulate freely inside the country;
- Logistical issues at the regional level: Closure of land borders, especially with Libya, might have a negative impact on export sales.

SAH Response and Revised Outlook

- Enforcement of strict hygiene and distancing measures at the production sites to maintain the continuity of operations;
- Development of new range of detergent products for professionals;
- Development of partnerships with local retailers to produce private label detergents;
- Deliveries to the local market secured through obtaining of required permissions;

Risk Assessment – Continuity of operations

Pandemic risk, sanitary lockdown and curfew

- Production interruption due to workers' absenteeism out of fear of contamination;
- Production interruption due to workers' absenteeism as a consequence of restricted circulation;
- Delay in day-to-day operations due to unavailability of support staff as a consequence of restricted circulation;
- Risk of contamination in both the headquarters and production facilities

SAH Response

- The group has implemented internal measures to preserve the safety and well-being of its partners and employees as well as their families. These measures were developed in conjunction with governmental services and public health authorities:
 - Intensive awareness sessions for the benefit of all employees through informative management memorandum and frequent visits of the occupational health doctor on sites;
 - Placement of alcohol hand sanitizers in all common areas;
 - Provision of antibacterial soaps for hand washing;
 - Disinfection of all premises including floors, surfaces, furniture and equipment using a certified bactericide;
 - Encouraging conference calls and limiting physical meetings, and if crucial, enforcing a safety distance of at least 1 meter between employees;
 - Enforcement of 14-day self-isolation for employees or partners who have traveled abroad and a general ban on travel in line with government recommendations;
 - Strict caution and spontaneous reporting against each employee showing symptoms of flu;
 - Encouraging carpooling among colleagues to limit the use of public transportation
- Additional measures were applied on production sites:
 - Reduced teams to minimize the risk of contamination;
 - Daily monitoring of health and safety measures by team leaders with managers;
 - Monitoring of body temperature and health condition of employees by a nurse at arrival and several times a day;
 - Disinfection of buses transporting employees of the three production sites of Azur Papier, Azur Detergents and SAH El Zriba
